To Parents from Mayflower Primary School

Dear Parents,

KooBits Math

We'd like to introduce the most popular online maths learning portal in Singapore, **KooBits Math**, as an additional learning resource for your child. It is specifically designed to help your child learn independently, improve understanding in mathematical skills and achieve mastery.

Developed by top educators in Maths and curriculum experts, KooBits offers the following benefits to your child:

- More than 100,000 maths questions with detailed solutions
- More than 1,000 animated videos and colourful illustrations to provide visual learning aid
- Correct misconceptions immediately with step-by-step solutions
- Intelligently assign bite-sized questions for your child to practice daily
- Peer learning with their friends from the school or other country
- Access homework assigned by teachers
- Ability to track your child's performance in real-time
- More than 50+ maths learning games to learn with fun
- Accessible anywhere anytime on desktops, laptops or tablets with Internet/data connection

Your child will be able to access Mission for self-practice, Homework and Assessment by teachers in the system, and get engaged via daily activities and peer interactions to learn maths, collect daily virtual badges with different themes, Koko Credits to unlock rewards and earn challenge points to participate in the many leaderboard challenge. It's highly recommended for your child to use this portal at home for independent and self-directed learning.
