

To read PDF files comfortably on your mobile phone, use Reading Mode in PDF reader apps such as Adobe's "Acrobat Reader".

Instructions for Android phones and iPhones follows:

## On Android phones:

1. Download and install a PDF reader app with Reading Mode, such as Adobe's "Acrobat Reader", from the Google Play Store.

2. Open the PDF file that you wish to view (the PDF reader just installed should now be the default app that open PDF files).
