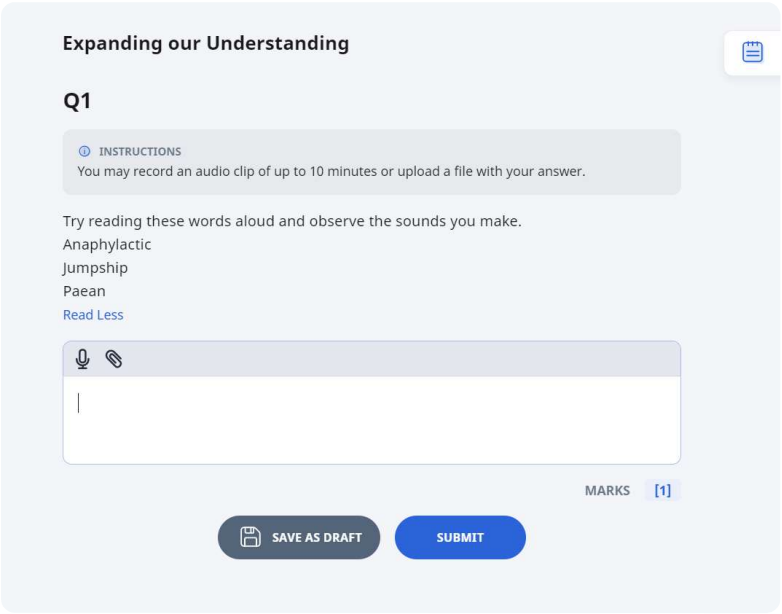
Attempt an Audio-Response Question

Audio-Response Question

Note: To use the Recording feature on iOS devices such as iPhones and iPads, make sure your device is updated to iOS/iPadOS 14.3 and your microphone setting in Safari is switched to "allow" mode.

1. For Audio-Response questions, you would need to allow the browser to access your microphone to start recording. Click the text box followed by the **Recording** icon at the top left to begin attempting the Audio Response question.



Note: Each recording can be up to a maximum duration of 10 minutes.

2. You can click the **Play** icon to listen to your recording to make sure that it is recorded successfully. Click the **Download** icon to save your recording on your local hard disk.

Note: Audio recordings can also be downloaded when it is still being processed.

3. You are allowed to attach only 1 recording at one time. You can delete the recording and redo a new recording before you submit it.
4. Alternatively, for devices that do not support the Recording feature, you can upload an audio or video file instead. Click here to find out how you can upload audio or video files.
5. In a standalone question that is not part of a quiz, you can submit your response by clicking the **Submit** button. You can also choose **Save as Draft** if you would like to revisit this question later on after you have visited other pages or logged out. Your responses will be saved.
6. Once you submit your response, you will be able to see the correct answer that your teacher might have provided.
7. In an Auto-Graded and a Teacher-Marked Quiz, you can submit after attempting the last question.

Note: You may also see the recommended time and the marks allocated for the question if your teacher has set them.

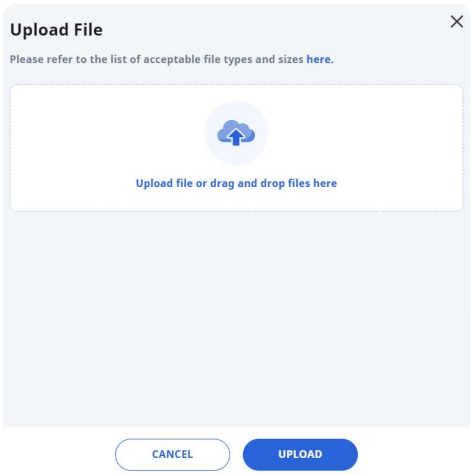
Rubrics in Audio-Response Questions

Some **Audio-Response Questions** contain **Rubrics** for reference. Click here to find out more.

Uploading Files for Audio Response Questions

For devices that do not support the Recording Feature, click the **Upload File** icon where there will be a pop up for you to drag and drop your file from an open folder window or by browsing. The accepted file types and limits are:

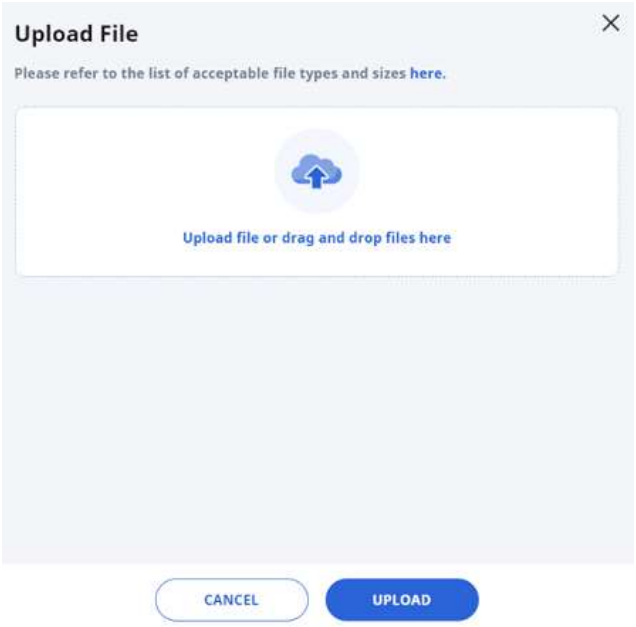
- Audio (50MB max): mp3/ogg/webm/mpa/wav/wma/w4a
- Video (500MB max): mp4/mov/m4v/ogv/avi/mpg/mpeg/wmv



Upload File (Updated)

Upload File

1. Click the **Attach Media** icon and choose the **Upload File** option.
2. To upload a file,
   - Drag and drop a file into the box; or
   - Click the box and select a file through the file manager.
3. Click **Upload** when done.



4. In the SLS, Media Objects are grouped into the following categories, each with its respective file size limits:

Type of File	File Extensions
Documents	docx/xlsx/pptx/pdf/odt/ods/odp/odg/odf/ke
Digital Graphics	jpg/jpeg/gif/png/svg
Audio files	mp3/ogg/webm/mpa/wav/wma/m4a
Video	mp4/m4v/ogv/avi/mov/mpg/mpeg/wmv
HTML5 Packages	zip
ZIP Packages	zip
Augmented Reality	usdz
Text	txt
Scratch	sb2/sb3
Sketchup	skp

5. If the file is valid, it will be uploaded and scanned for viruses.

Special Characters/Other Languages

Insert Mathematical or Chemical Equations

Insert Drawing

Insert Emoticon

Insert Chinese or Tamil Text

- The virus scan will take longer if the file size is large.
- To view Augmented Reality files, separate software may be required.
- File names should be kept within the 50-character limit, which excludes the extension in a file path.

6. When the file is successfully uploaded, the Media Object will be added to your response.

Uploading Media Objects from an iOS Device

1. Uploads via iOS devices are supported.
2. However, if you encounter any errors, please ensure that you are uploading files from the **Photo Library**, **Take Photo or Video**, or **Browse from Files**.

Uploading Media Objects from an Android Device

1. Uploads via Android devices are supported.
2. However, if you encounter any errors, please ensure that you are uploading files from the **Phone Directory**.
   - While rare, Android users might encounter problems when uploading files directly from shortcut links such as **Picture, Video, and Recent**.
